

# Hangman User Guide

Welcome to the Hangman game.

## How to play?

```
$ ./hangman.sh (or) python3 Hangman.py
```

```

Hangman
+-----+
|      |
|      O
|     / \
|    /   \
|   /     \
|          |
|  -----|
|         |
+-----+

Do you want to play Hangman?>

```

Enter y, yes, yup, yeah, sure, si, or oui to play the game. Otherwise, exit

Next, will take us to the main menu.

```
Hangman: Main Menu
1. Start a new Game
2. Show game stats
3. Help?
4. Done playing Hangman for now

Enter option >
```

Now, select one of the options. Enter 1 to start a new game.

Next, will show us category whatever we added. We can add our own category, let's discuss end of the docs, [how to play our own category?](#)

```
Categories
0. Go Back
1. TN Districts
2. IND states
3. Top 10 cars
4. Biryani Varieties
5. Avenger series

Select a category >
```

Select a category you want to play.

Once you select a category, it will load the words of that category into the game. Now it will pick a random word from this list and you can play Hangman!

Here is your blank game board.

```

Hangman
-----
|
|
|
| ----- |
| ----- |
+-----+

+-----+
|          Item          |          values          |
+-----+
| Category               | Top 10 cars      |
+-----+
| Your Guess             | ---- - - - -    |
+-----+
| Letters guessed        |                  |
+-----+

Enter a letter or word> 

```

Now enter a letter to guess the word, and have fun!

After you complete each round, it will give you the following game stats.

Item	values
Number of game played	1
Number of games you won	1
Win %	100.00

If you could not guess the word in 6 tries, here is how the game board will look like.

[illegible]

```

Hangman
-----
|
|
|
| | ----- |
| | ----- |
+-----+

+-----+
|          Item          | |          values          |
+-----+ +-----+
| Category               | | Top 10 cars             |
+-----+ +-----+
| Your Guess            | | ---- - - - -   |
+-----+ +-----+
| Letters guessed       | |                      |
+-----+ +-----+

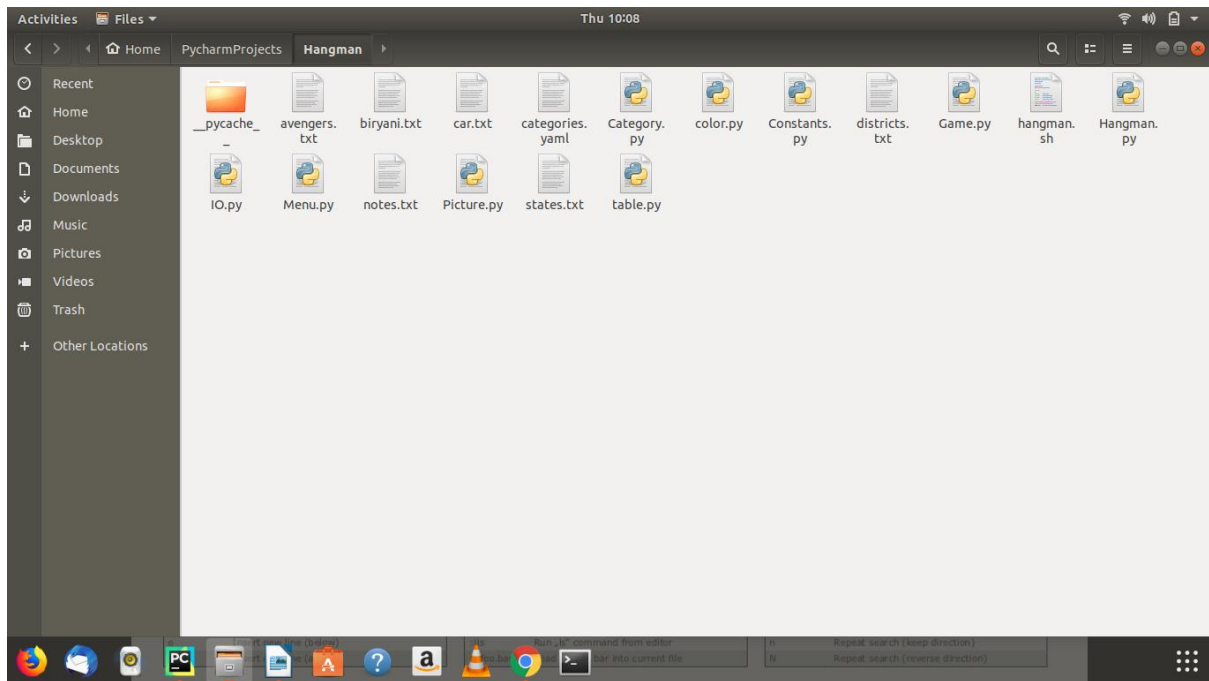

Enter a letter or word>? 

```

```
Hangman:Menu

1. Play again in the 'Top 10 cars' category
2. Change category
3. Go Back

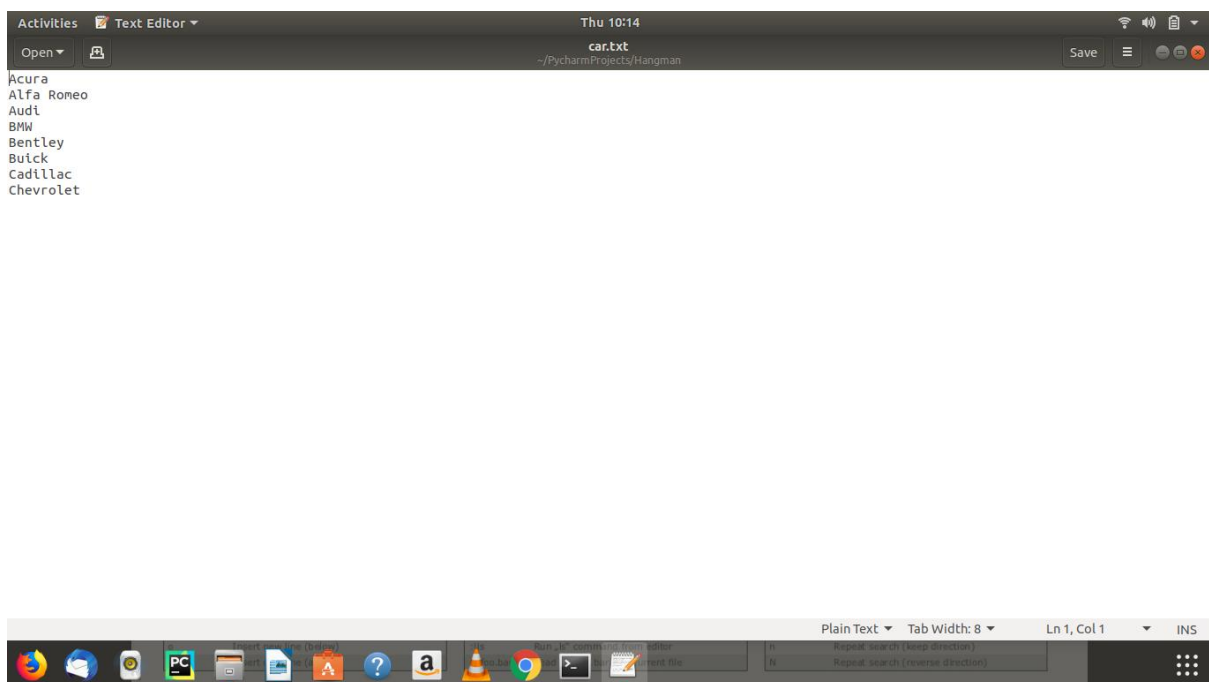

Enter option >
```

## Step 2:

Create a text file and paste it your category words

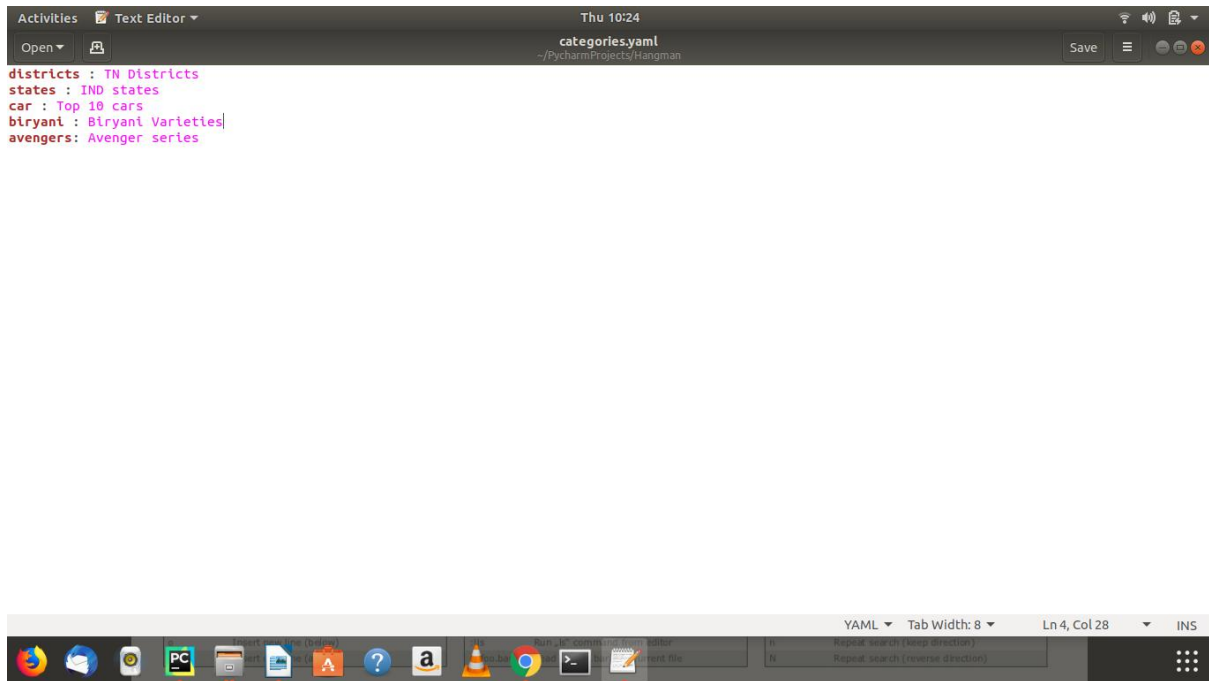

Ex: game.txt

### Step 3:

Open 'categories.yaml' from source folder and enter data using following syntax

<file name> : <Category name>

```
districts : TN Districts
states : IND states
car : Top 10 cars
biryani : Biryani Varieties
avengers : Avenger series
```
